On TRACK

By John Hoke, Editor

March is over and April is here with only a little over a month now until the state meets in May. We have had the typical round of Oklahoma weather--some good, lots bad--but the volume of track meets is really picking up now. Results have been coming in at a good pace with probably 95% of those in the past two weeks being reported in time to be included in this issue.

The team rankings and season leader listings in this issue are based on results received through March 28th. This issue is getting out a little late due to the volume of results that needed to by typed and factored into the season leaders listings--after being gone for two weekends for spring break--but we're back on track for the next issue which will be dated April 12th.

I know in advance that there are plenty of errors and omissions in the class season leader listings in this issue so please don't be shy about calling to let me know the correct information. Remember that times/distances only qualify for listing if the full results of the meet have been received by our office. Preliminary times are used only if the meet director certifies them in writing. There were a lot of great performances in meets the last weekend in March and they will be included in the next issue.

It is getting close to signing time for NCAA letters of intent and I would like to hear from anyone that signs so we can report on it. There are over 40 college coaches that subscribe to the *Oklahoma TRACK & FIELD NEWS* and many call on a regular basis to ask for information regarding Oklahoma athletes. If you are interested in continuing your career as an athlete in college, drop me a note or give me a call.

Regional assignments will be made before the next issue is out and we will list them in that issue. There is still plenty of time to contact your representative on the advisory committee--listed at the bottom right of this page--if you want to have an impact on these assignments. Making those assignments is a really tough task and I want to thank the members of the committee in advance for the job they have been doing keeping up with their class division through the year. It is an unbelievably complicated job and I know they are very conscientious about doing the best they can.

Former Edmond coach, Gary Boxley, is working on updating the listing of the top performances by Oklahoma high school athletes and promises that it will be ready some time soon. Hopefully, we will be able to get it into print and make it available to anyone interested in having a piece of Oklahoma track history.

There is a story in this issue listing the coaches and staff for the 3rd annual Oklahoma vs. Arkansas Track Dual which is really a great opportunity for our athletes to showcase their talents to a wider audience. This is basically track & field's version of the All-State competition and it is an honor to be picked for the team. Coaches need to be members of the Oklahoma Track Coaches Association and should contact one of the event coaches listed or the head coach if they have athletes they want to nominate for consideration.

The OTCA also honors track coaches with Achievement Awards based on years in coaching and points scored at the state meet. Points are awarded based on your team's placing with 1st place 10 points, 2nd place 9 points, etc. Level I requires 10 years of coaching and 25 points total and is recognized with a certificate, Level II requires 15 years and 50 points and is recognized with a watch. For further information or to make a nomination, contact Amie Lampkin, Plainview H.S., 1140 S. Plainview Road, Ardmore, OK 73401.

See you at a track meet!

Eat Breakfast For an Edge In Nutrition

Breakfast skippers are missing out on more than good taste. Here are five smart reasons to start the day with breakfast:

1. Breakfast eaters tend to have higher intakes overall of fiber and vitamins and minerals, especially calcium, vitamin C and folic acid.

2. Eating breakfast can improve concentration and performance while reducing fatigue and irritability in the late morning hours.

3. Breakfast is the easiest meal to prepare. Preliminary studies have shown the overall intake of cholesterol, saturated fat and total fat to be lower among those who ate even a simple breakfast of cereal than those who did not eat cereal or skipped breakfast entirely.

4. Eating breakfast may help with weight control by reducing overall fat intake and minimizing impulse snacking and overeating at other meals. Many people mention that when they eat oatmeal for breakfast, it gets them through the morning without feeling hungry. This is because oatmeal is a good source of fiber, including soluble fiber. Because the soluble fiber in oatmeal absorbs a considerable amount of water, it significantly slows down the digestive progress. As a result, we "feel" full longer.

5. Preliminary research suggests that breakfast eaters burn more calories throughout the day. Breakfast skippers have metabolic rates that are four percent to five percent below norman, which can result in a weight gain of one pound every seven weeks (about eight pounds a year) even if the same number of calories are consumed.

The goal of the Bears' running camp is to be able to run faster, safer; to learn new skills and techniques , and to better understand and use new training concepts in order to be an improved distance/cross-country runner. All runners are ability grouped. Mileage totals during camp runs are used for development only and are of only secondary importance to motivation and for goal setting. Camp is preparation for future training. It is an underlying goal that all campers will have a certain minimum fitness level established before they are ability grouped.
